

16 November 1967

NOTE FOR: Mr. Duckett

Rumblings lead me to believe that there may be considerable grass roots resentment in FID and COMMO because of ORD's entrance into the emanations field. Protests, notwithstanding, prior recitations by ORD describing its proposed program allegedly surprised FID and OC. An informal review, perhaps by you for information, might be the very stitch in time which could preclude something equivalent to the audio coordination program.
